

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In Re application of:

Yong Gyu KIM

Group Art Unit: 2835

Serial No.: 09/966,083

Examiner: UNKNOWN

Filed: October 1, 2001

For: **METHOD OF MOUNTING LIQUID CRYSTAL DISPLAY MODULE AND
APPARATUS THEREOF**

PRELIMINARY AMENDMENT

Assistant Commissioner of Patents
Washington, D.C. 20231

Sir:

Prior to issuance of a first Office Action, please amend the above-referenced application as follows:

IN THE SPECIFICATION:

Please **ENTER** the accompanying substitute specification.

REMARKS

On October 23, 201 the United States Patent and Trademark Office mailed a "Notice To File Corrected Application Papers" for the subject application. That Notice required a substitute specification in compliance with 37 C.F.R. §1.52. As best understood, the original lacked required margins and had "punch holes" that obscured the specification. In response, Applicants request acceptance and entry of the accompanying substitute specification.

As the original application was not available electronically, the substitute specification was typed into a new document. The resulting document was then carefully checked to ensure compliance with the original. The only known change is the incorporation of a new "Footer" that will enable internal tracking and handling of the specification at the

law firm of the undersigned attorney. Examination and consideration of the subject application are respectfully requested.

If these papers are not considered timely filed by the Patent and Trademark Office, then a petition is hereby made under 37 C.F.R. §1.136, and any additional fees required under 37 C.F.R. §1.136 for any necessary extension of time, or any other fees required to complete the filing of this response, may be charged to Deposit Account No. 50-0911. Please credit any overpayment to deposit Account No. 50-0911. A duplicate copy of this sheet is enclosed.

Respectfully submitted,

LONG, ALDRIDGE & NORMAN
